Edited by Ferdie J. Deering

"What cowboys really looked like . . ."

Cowboys didn't have fancy clothes. What they wore was for work, and served useful purposes. This interesting photograph and hundreds more tell the story of the multiple landscapes and diverse people of Oklahoma in "Look at Oklahoma", a 160-page Bicentennial edition book, measuring 10" X 12". It can be purchased by mail for \$17.95 plus 55 cents postage and handling from The Oklahoman and Times or at the various Continental Federal Savings and Loan Association offices in the Oklahoma City area.
